29mm Motor Retainer

- Machined Anodized Aluminum
- For use with Single Use and RMS Reloadable Motors (w/Built-in Thrust Rings)
29mm Motor Retainer
Installation Instructions.
Fits all AeroTech 29mm motor mounts. May fit other tubes with OD of 1.235”

Step 1.
 a. Test fit before applying any epoxy.
 b. Lightly sand the inside surface of the retaining ring to rough it up.
 c. Should be a snug fit.

Step 2.
 a. Use J.B. Weld epoxy.
 b. Apply the epoxy to inside of retainer.
 c. Slide in place being careful to not get any epoxy on the threads.
 d. Allow to cure 24 hours before use.
